Standard Specification No **10**

MINISTRIP BROADLINE.

SPECIFICATION.

Broadline **metal strip ceiling** panels shall be installed strictly in accordance with the manufacturer's recommendations and the installer shall be responsible for the neatness and strength of the overall installation.

Provide **ACS P/No 4A** Carrier Rails, spaced at 915mm apart, suspended below upper supports using **ACS P/No 63**, 25mm x 25mm x 0.8mm PGI compression angle hanger and spanning not more than 1800mm between hangers. The Carrier Rails shall provide machine spaced and shaped clips to accept Ministrip ceiling panels at exactly 75mm centres. The clipping face of the Carrier Rail shall be Matt Black painted.

Ministrip "Broadline" **metal ceiling** panels ***(non-perforated / band perforated / fully micro perforated)** shall be cold roll formed Colorbond Zinalume 0.4mm (nom) BMT ***(or a selected colour from the BHP Colorbond range).**

The panels shall have a substantially flat face purpose rolled profile appearance, spaced from each other leaving a 7.5mm gap.

Wall trims to be extruded aluminum ***("L" / "W" shaped shadowline)** of baked enamel finish to match the colour of the panels.

Acoustic and Thermal insulation to the thickness ***(25 / 50 / 75mm)** shall be black faced with a non-woven scrim and shall be laid over the ceiling panels and between the up stand legs of the carrier rails.

NOTES:

- * **Please select one option in each case before printing specification.**
- * **The standard colour is Colorbond Off-White. Other Colorbond options are subject to availability.**
