Standard Specification No.13

ALUMACOUST MK I.

SPECIFICATION.

Alumacoust MK1 **metal strip ceiling** panels shall be installed strictly in accordance with the manufacturer's recommendations and the installer shall be responsible for the neatness and strength of the overall installation.

Provide ACS 4C carrier rails spaced at 1200mm apart, suspended below upper supports using ACS P/No. 63 25x25 PGI compression angle hangers and spanning not more than 1800mm between hangers. The carrier rails shall provide machine spaced and shaped clips to accept Alumacoust Mk I ceiling panels at exactly 101.6mm centres. The clipping face of the carrier rail shall be Matt Black painted.

Alumacoust Mk I **metal ceiling** panels ***(non-perforated / perforated)** shall be cold roll formed Aluminium strip from ***(pre-coated coil / and baked enamelled)** to a colour, to be selected, from the ACS colour range. The panels shall have a bold convex face profile of 28.5mm depth, spaced from each other leaving a 12.7mm gap.

Wall trims to be extruded aluminium ***("L" / "W" shaped shadowline)** of baked enamel finish to match the colour of the panels.

Acoustic and thermal insulation in a thickness of ***(25 / 50 / 75mm)** shall be black faced with a non-woven scrim and shall be laid over the ceiling panels and between the up stand legs of the carrier rails.

Closure strips (if required, plain or slotted for ventilation) shall be fitted as the installation of the face panel progresses.

NOTES:

- * **Please select one option in each case before printing specification.**
- * **The standard colour is Colorbond Off-White. Other Colorbond options are subject to availability.**
